PROJECTS

Digital Art Creation Platform Using AI

Developed an interactive web-based platform enabling users to generate digital artwork using AI models (e.g., DALL·E or Stable Diffusion).

Integrated AI APIs to transform textual prompts into high-quality digital images in real-time.

Built a responsive UI using React.js and Tailwind CSS with a focus on accessibility and user experience.

Implemented state management using Zustand to manage prompt history, image generation status, and saved art pieces.
